

Consent Form for Influenza Vaccine

The influenza vaccine has been shown to protect older adults from hospitalization and deaths, resulting from and influenza infection. The Advisory Committee on Immunization Practices (ACIP) recommends that influenza vaccine be provided to all residents of long-term care communities, annually, prior to the influenza season.

Reactions at the site of injection may occur. Mild fever or aches may also occur.

Living Branches conducts an organized vaccine campaign between October 1 and October 31. In addition, influenza vaccines will be offered to all new admissions throughout the influenza season (October 1-March 31).

☐ Yes	I wish to receive the influenza vaccine now and on an annual basis while I am residing in this facility.			
☐ No	I do not wish to receive the influenza vaccine this year.			
☐ Yes	I have received the current influenza Vaccine Information Statement (VIS).
